Education
Public Schools

It's been great weather to get our seedlings going but they still needed a bit of a water.

At our last assembly, these students received a 100% attendance award for coming to school every day in Weeks 1 to 5.

News

We still have a busy calendar for the last few weeks of term, the last day being 4 July 2025. Tomorrow is Kempsey High School's transition for Year 6 students starting at 8.30 am.

If the weather holds this week we will have our athletics carnival on Friday 20th. This is a great day for families to come along and cheer on students. The P&C will also be running a small stall so please support it and help out if you can.

Selected students will be competing at the Small Schools athletics carnival on Friday, 27th in Kempsey. Notes will be sent out next week. Parents will be required to transport their own children on the day.

The Department has released a new student report which we will be trialling this semester. It is a much more simplified version with parent friendly language and we will be interested to know what you think.

Thank you to those parents who have been letting us know promptly why their child has been absent. This can be done through the School Bytes app, sending a text to the school mobile, leaving a message on the school landline or in writing. Every day matters!
